Secure check signing and printing just got easier!

Wycom Enterprise

Wycom Enterprise makes it simple and secure to sign and print checks using any printer on your network. Whether you use pre-printed stock or blank secure check paper, Enterprise turns your printers into secure check signers or MICR check printers accessible from any computer on your network.

Simple

This plug-and-play solution couldn't be easier to use: It's pre-programmed and software independent, so there's no downtime to get started and no need to learn new applications. Connect Enterprise to your network, assign log-in access to authorized users, and you're ready to go.

Secure

Wycom Enterprise securely stores valuable signatures, logos, check overlays and user accounts on the hardware—so they don't reside on your system. Browser-based log-in is protected by secure passwords. And you have the option to allow different levels of access for administrators, supervisors and users.

Robust

Wycom Enterprise provides all of the check signing and MICR check printing features you need in a single, easy-to-use solution, including:

- Compatibility with laser and dot matrix printers
- Password-restricted browser-based administrator panel for easy, efficient administration
- Ability to archive non-negotiable .PDF check images for easy storage and retrieval
- Advanced security through custom graphics for dollar prefixes and amounts

PAY ☞ 100000 Dollars 00 Cents

- Ability to automatically suppress signatures at designated amounts
- Automated check signing with secure signature background
- MICR Laser Check Printing option
- Conversion of legacy dot matrix data to laser format

For a full list of Wycom Enterprise features and specifications, see reverse side

Pre-printed or blank secure check stock: you choose.

Use Enterprise to automate check signing using pre-printed check stock. Or further enhance security and efficiency by printing checks securely to blank secure check stock on your laser printer with our MICR option.

Wycom Enterprise Specifications

Check Signing Features:

- Offers easy-to-use browser-based log-in and administrator panel for enhanced security
- Secure log-in enables remote check printing
- Automatically prints and signs checks in a single pass directly off the printer
- Allows up to 3 signatures per check
- Signature titles and backgrounds available
- Enables optional protected amount only printing (when you do not want a signature)
- Supports unlimited accounts (e.g., payroll, accounts payable, share draft, purchase order, etc.)
- Keeps accurate tally of checks for audit control through non-resettable counters
- Counts signed checks, voided checks, or all checks

- Offers 1U rack mount chassis
- Suppresses signatures for checks exceeding a pre-determined dollar amount
- Provides amount limits (e.g. add signature at amount, suppress signature at amount, void at amount)
- Adds forgery-resistant protected graphic amount while printing
- Saves time and offers greater efficiency
- Produces manual checks if your computer system goes down
- Eliminates signature plates, rubber stamps and check signers
- Provides a simple upgrade path for dot matrix customers to allow for MICR laser check printing

MICR Laser Check Printing features (optional):

- Saves money by using blank secure check stock instead of pre-printed check stock
- Adds forms, graphics, logos, signatures and MICR information
- Able to create non-negotiable .PDF copies and archive all check disbursements
- Can print non-negotiable check copies
- .PDF image files can be indexed for import into most imaging platforms
- Operates with HP-compatible laser printers
- Can convert dot matrix information to laser
- Eliminates the need for separate check stock for each bank account

- Prints a MICR line which meets ABA specifications (with MICR toner cartridge)
- Supports company and bank logos, forms, and graphics
- Can print check copies with "COPY" in place of signature and "NON-NEGOTIABLE" in MICR line
- Secure blank check stock can be pulled from alternate trays
- Prints check numbers (even for customers who do not send check numbers)
- Check numbers are always in sequence
- No checks to void when printer jams
- Autosense automatically recognizes which check form to print

Compatibility:

- No computer hardware or software changes required
- Multiple printer support available
- Works with any HP-compatible printer supporting PCL5
- Works with nearly all dot matrix printers and can transform dot matrix print data to laser format on the fly
- USB interface
- 10/100BaseT Ethernet
- Print server supports output via LPR/LPD and Direct TCP (raw) protocols
- Compatible with the MICR Laser Check Printing option
- Compatible with the Dot Matrix to Laser Conversion option

Each unit includes:

- 2 signatures
- 2 check account/applications (e.g. payroll, accounts payable, etc.)
- 90-day factory warranty
- 1 printer license

* Additional signatures, custom logo prefixes, applications, MICR Laser Check Printing, and Dot Matrix to Laser Conversion are available for an additional charge.
